STUDENT 1

JUNIOR INTERIOR DESIGNER

FUNCTION FIRST.
CREATIVITY ALWAYS.

ABOUT ME

FUNCTIONAL DESIGN • BOLD COLOR • RICH TEXTURE

I am a junior interior designer with a strong belief that functionality should always be at the heart of a well-designed space.

I aim to create interiors that are practical, comfortable, and visually engaging, while responding to the way people live and use their surroundings.

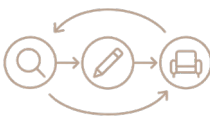

I enjoy combining different colors, materials, and textures to bring depth, contrast, and individuality into a space. Contemporary art is one of my main sources of inspiration, influencing the way I approach composition, color, and distinctive design details.

My goal is to create modern interiors that feel thoughtfully curated rather than overly styled.

PROJECT 01

Work/Life

PROJECT OVERVIEW

This project explores a warm contemporary interior designed for a young professional woman, bringing together two important parts of her everyday life: working from home and relaxing in the living room. One of the main goals was to create two clearly defined spaces within one room, while still keeping the interior open and allowing natural light to pass through freely. The working area feels more focused and private, while the living area remains comfortable and inviting for relaxing, watching TV, or spending time with guests. The design combines practical zoning, generous storage, comfortable seating, and a dedicated workspace without making the room feel divided or crowded.

CLIENT GOALS

CLIENT PROFILE

A young professional woman works from home, stays busy during the day, enjoys relaxing in front of the TV in the evenings, and welcomes relatives on weekends.

GOALS

A well-zoned living space that responds to the lack of an extra room for a home office, integrating a dedicated workspace while preserving the living room's main function as a comfortable area for relaxation.

STYLE PREFERENCES

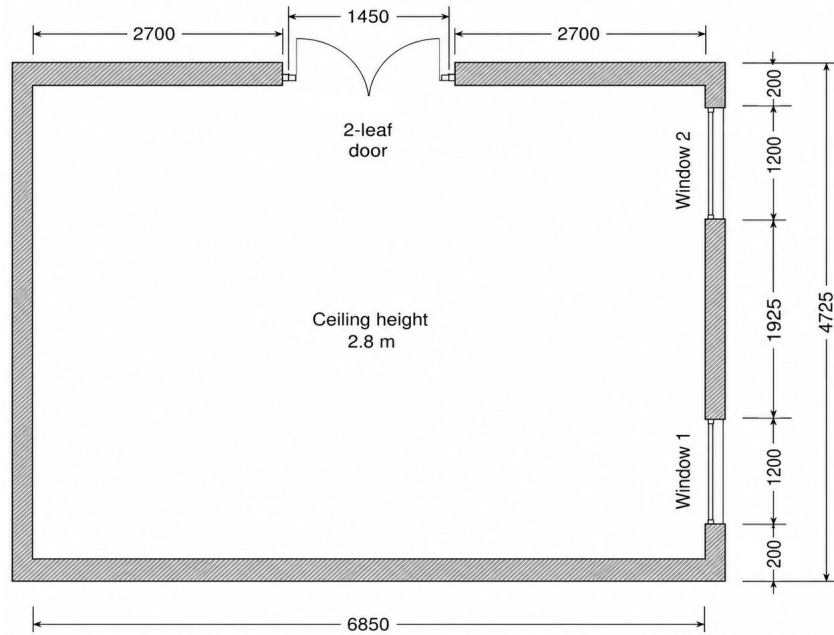

Contemporary style with eclectic touches is supported by warm, light tones and highlighted with vibrant colors and a mix of textures and materials.

NON-NEGOTIABLES

A dedicated work area, open shelving for storage and decor, large artworks, multiple seating options, and rugs.

INITIAL FLOOR PLAN

CONCEPT STATEMENT

A warm, contemporary interior where calm neutral tones meet bold accents. The open layout connects the working and living areas, divided by an airy shelving unit that adds function and character. Natural light, soft beige tones, and wooden textures create a relaxed atmosphere, while deeper and more vibrant colors bring creative energy to the workspace. Low seating, layered textiles, curated art, books, and objects add comfort and personality. The space balances focus and relaxation, making it ideal for work, quiet evenings, and hosting.

DESIGN DIRECTION IN THREE WORDS
INVITING • BALANCED • SOFT

DESIGN APPROACH

The aim of the design is to create a fully functional workspace with good lighting and clear separation from the rest of the room. A love of art is reflected through large artworks and decorative objects displayed on the open-shelving divider. A variety of seating options supports both relaxing evenings in front of the TV and weekend gatherings with relatives. The desire for a soft, inviting ambience is fulfilled through a mix of upholstery fabrics, throws, and rugs.

PROJECT 02

Bryan's 1BR Apartment

PROJECT OVERVIEW

This project explores a compact 1BR apartment designed in a Soft Industrial Modern style for a young single professional who has recently purchased their first home after years of renting. The main goal was to fit all the essential functions and everyday needs into a limited space without making the apartment feel crowded. The living area provides enough comfortable seating for relaxing and gathering with friends, while the compact kitchen offers everything needed for everyday cooking, including dedicated wine storage as one of the key requirements. To keep the main living space more open and spacious, the reading area and book storage were moved into the bedroom, creating a quieter private corner. To save space, the entry storage was concealed behind stylish fabric curtains.
